Montana

Timeless — display

Designed by Verner Panton in 1971, the Panton Wire has re-emerged as a design collectible with new elements and tops added to the flexible system. Raw yet elegant, light yet industrial, the Panton Wire unit can be used individually or in combination – on the floor, hanging on the wall, stacked or as room dividers.

The Panton Wire is available in 4 finishes, the tops in 9 finishes and shelves in 6 finishes.

Less is — not a bore

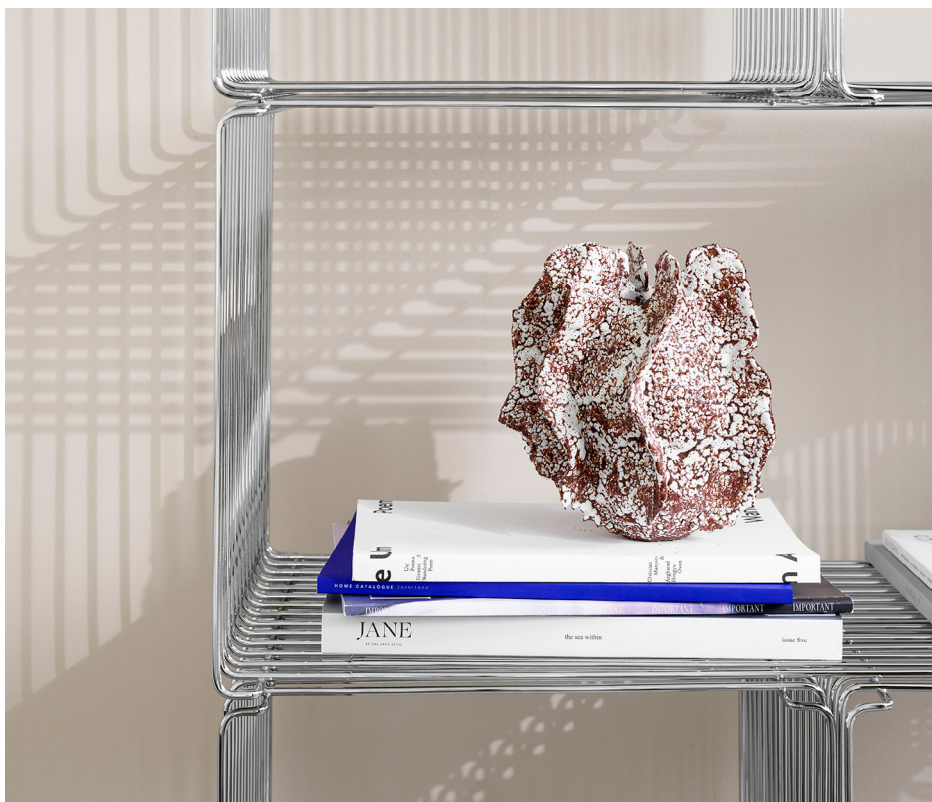

With its three-dimensional skeletal construction, see-through from all angles, the Pantone Wire becomes the ultimate display shelf.

Modular minimalism

Timeless, modern and adaptable for many purposes, used as single units or stacked in creative compositions.
