British artist Richard Woods is renowned for his work with garish and repetitious motifs. He has applied these to facades, doors and walls across the world in commissioned work and gallery installations. Designer Sebastian Wrong teamed up with Woods for Established & Sons' programme of collaborations where individuals from two creative worlds work together. Woods' block printed motifs were applied to Wrong's utilitarian cabinets. These storage units are reminiscent of 1950s furniture – a fitting vehicle because much of Woods' work is based on a nostalgia for mid-century domestic interiors.
