GHOST / CHAIR, Paola Navone

Chairs with and without armrests, have a minimal structure, with clean and defined geometric shapes. The Ghost chair family has a solid beech frame and raw plywood panels, seat with elastic belts or raw plywood panels supporting the seat itself. Upholstery with differential density polyurethane foams, covered by resinated material. The main feature of the Ghost chairs is the removable cover, an oversize house whose shape is underlined by the visible stitching, allowing it to be put on and taken off in a flash. A textile product that easily changes appearance, allowing you to go from a formal to an informal look with ease and speed. Available in all our fabrics except for 3D.
